

80% of the litter we find in our ocean comes from inland, help us stop ocean pollution in its tracks! Spot the litter, tick what you found, then pick it up.

Total participants:

Weight of litter: kg

Number of bags:

Weirdest item found?

Where did you clean? (please circle)
 Town | Countryside | Park | Street | River
 Playground | Grounds of the office | Other

School group? Age range:

Youth group? Age range:

First half of your postcode:

The litter you record on your local clean-up will help us identify and create a snapshot of the litter that is still plaguing our environment, including new single-use items such as PPE.
